200 HOUR JSY YOGA TEACHER
TRAINING AT STATE

module 3 | the ethics, history
and philosophy of yoga

(30 HOURS) LED BY JESSICA STEWART

Welcome

Deciding to join a yoga teacher training course (YTTC) is an exciting, and often defining, moment in life.

It is also a big investment, and it can be hard to work out what one YTTC will offer over another. This information pack details our course's content and explores what makes this training distinct from others. Its aim is to help you discern whether our approach and inspiring curriculum aligns with your goals and intentions.

Many people start a YTTC with no intention to teach. This course has been designed to foster a deep understanding and love of yoga, whether you choose to go on to teach or not.

This 200 hour yoga teacher training course will:

- build greater depth of understanding about, and immerse you in the advancement of, your own personal practice
- coach you in clear, strong techniques for hatha and vinyasa yoga
- explore in depth the anatomy, technique, philosophy and mindfulness that underlies an authentic yoga practice.

Why this course?

This course is verified by Yoga Alliance International. On full completion of the course you will be eligible to register as a yoga teacher, should you want to, and apply for public liability insurance. You will then be ready to teach within the UK and internationally.

Capacity on this course is kept to a carefully considered group size, where all students receive plenty of support and attention. The course is managed to ensure high-level tuition, lots of individual time with the course leaders, and a safe, supportive environment for self-development. We are very proud of the support, warmth and intimacy of our TTC community that distinguishes it from the very large YTTCs on offer in London.

Our course works through an inspirational method of classical and anatomically-aligned sequencing of hatha and vinyasa yoga. Our technical approach to postures and clear explanation of anatomy is met with deep exploration into the philosophy, energetics and mindfulness integral to the tradition of yoga.

Our training advocates a balanced 'east meets west' approach. It is non-dogmatic and is respectful of other disciplines. This lays a non-biased foundation for understanding the world of yoga, and allows students to find their position within it. We aim to inspire a unique and powerful voice in each student, in both their own practice and any teaching they go on to offer.

The curriculum has been curated to balance up-to-date anatomy and alignment content, alongside a thorough understanding of the traditional roots of yoga that is rarely achieved in a 200 hour programme..

What is the format?

The module can be taken online or live at state studio, Highgate

CLOSED GROUP LIVE CLASSES & SEMINARS

The full 30 hour module will take place as a closed study group, comprised of online live-stream interactive seminars and in-studio classes. These can be joined online with our in studio live-stream set-up, or in studio.

CLOSED GROUP ONLINE SEMINARS

Weekday evening online lectures take place on zoom, and a recording of the seminar is available on the student's google drive for the duration of the course.
